Notes:

- (i) The coal blocks earmarked for power sector are meant both for tariff based bidding and Central Government companies engaged in production of power. The further earmarking would be done in consultation with the Ministry of Power and CMPDIL and the same would be notified separately before the applications are invited.
- (ii) The blocks meant for Government companies shall be allocated for commercial mining only and they shall be circulated inviting applications after detailed terms and conditions are finalised.
- (iii) Applications for the blocks reserved for integrated steel for Government companies shall be separately circulated after finalisation of terms & conditions. The remaining blocks meant for allocation through auction by competitive bidding would be advertised once the bidding documents are ready.
- (iv) The coal blocks earmarked for allocation through tariff based bidding and for allocation through auction by competitive bidding shall be allotted only after exploration and preparation of Geological Report.
