

# Coal Sector Records Steady Growth: Production Up by 5.88% and Dispatch Up by 5.73% Upto January 2025

Posted On: 03 FEB 2025 12:14PM by PIB Delhi

India's coal sector continues to demonstrate resilience and growth, achieving steady progress in both production and dispatch during April 2024 - January 2025. Total coal production during January 2025 has reached 104.43 MT, reflecting 4.38% increase over 100.05 MT recorded during the corresponding period of the previous year. The contribution from Captive, Commercial and Other Entities for January 2025 has also been particularly strong, with production surging to 19.68 MT, 31.07% rise from 15.01 MT in the corresponding period of the previous year.

On a broader scale, the cumulative coal production up to January 2025 has climbed to 830.66 MT, marking a 5.88% increase from 784.51 MT recorded during the corresponding period of the previous year.

Similarly, Coal dispatch has also kept pace with this growth. The total coal dispatch during January 2025 stands at 92.40 MT, registering 6.31% increase from 86.92 MT in the corresponding period of the previous year.

Coal dispatch from Captive and Other Entities for January 2025 has also shown remarkable growth, reaching 17.72 MT as compared to 13.64 MT in the corresponding period of the previous year, reflecting 29.94% increase. Meanwhile, the cumulative coal dispatch up to January 2025 has risen to 843.75 MT, marking 5.73% increase from 798.02 MT recorded during the corresponding period of the previous year.

These figures underscore the sector's strong performance in ensuring a consistent energy supply. The Ministry of Coal remains steadfast in its commitment to enhancing the sector's productivity, ensuring energy security, and supporting the country's economic growth.
